## Your Favorite Room Isn't a Room, It's a Yard.

You've worked hard to make your house a home - functional, comfortable, a natural expression of your personality. With *ActiveYards*, that feeling doesn't stop at your door.

From the strength and beauty of their craftsmanship, to the guarantee of their future, our outdoor living products make your yard an integral part of your home.

Solutions for busy backyards. *ActiveYards*.

CORIGIN™

### Corigin™ Technology

Better from the inside out

ActiveYards has a whole new way for you to think about aluminum fencing. With a patent-pending construction system called Corigin, we connect the pickets and rails from the inside, fortifying the core and building a fence that outperforms all other standard fencing. It's a smarter design that makes ActiveYards the strong, beautiful choice for your yard.

### Our Strength is at the Core

ActiveYards aluminum fencing with Corigin technology features a solid metal core that runs through the center of each rail to help it stand strong through the seasons.

What's the biggest difference? No screws. With time and weather, screws on traditionally built fences can loosen, rust or break. Our core is designed with interior locking pivots that grip each picket of the fence just as tightly as screws, but without the wear and tear.

Locking Core Pivot

# ActiveYards™ Ingenuity

We believe your time outside should be fun and carefree. That's why we work hard on our patented technologies to bring you beautiful, durable solutions backed by lifetime warranties.

SOLARGUARD™

Color that Lasts

You work hard for vibrant landscaping, and your fence shouldn't pale in comparison. Our advanced technology protects it from the sun's harmful rays so the color you choose today will keep a bright, like-new finish for seasons to come.

Even when the sun is at its brightest, your fence should be too. That's why we've created an exclusive color retention technology, SolarGuard, which helps your fence outperform others against the sun's harmful rays.

The secret of SolarGuard is in the unique composition of the fencing material itself. SolarGuard technology is actually infused as the fence is created, helping to protect its color from the inside out. Where standard fencing fades or discolors as a result of sun exposure, you can rest assured that SolarGuard helps your ActiveYards fence retain its original color beautifully for years, guaranteed.

CAMBIUM™

Natural Beauty

Enjoy nature uninterrupted. Cambium gives your ActiveYards fencing a natural wood appearance. As you take in the view of your backyard, this beautiful boundary blends right in. Every fence with Cambium also comes standard with SolarGuard technology to keep the wood appearance rich for years.

Your backyard is your own nature sanctuary. With Cambium, your fencing can feel just as natural. It was created to give your fence a convincing wood look so it blends with the natural beauty of your backyard.

Cambium technology is inspired by the natural endurance of trees. Just as cambium cells in a tree keep it healthy year after year, our Cambium stays strong and beautiful too. Unlike real wood, the vinyl construction will never fade, warp, crack, or mildew, guaranteed. And with a lifetime warranty, you can enjoy peaceful outdoor living worry-free for all the seasons ahead.

GLIDELock™

Privacy & Strength

Your private outdoor sanctuary should be just that: private. Our unique, patent pending design goes together easily, locking tightly into place without any gaps. And it gives you more than seclusion, too. GlideLock fencing holds up to wind better than traditional fences.

Relax outdoors in total privacy. With GlideLock, your ActiveYards fencing assembles like traditional pickets but locks together for a tighter fit. In fact, there are no gaps at all. The result is perfectly peaceful seclusion that will last a lifetime.

ActiveYards GlideLock fencing holds up in wind. That's because the tighter fit adds strength to your ActiveYards fence. It resists wind pressure better than traditional tongue and groove pickets so even in a storm, your privacy isn't going anywhere.
