CAMBIUM™
Natural Beauty

Enjoy nature uninterrupted. Cambium gives your ActiveYards fencing a natural wood appearance. As you take in the view of your backyard, this beautiful boundary blends right in. Every fence with Cambium also comes standard with SolarGuard technology to keep the wood appearance rich for years.

Your backyard is your own nature sanctuary. With Cambium, your fencing can feel just as natural. It was created to give your fence a convincing wood look so it blends with the natural beauty of your backyard.

Cambium technology is inspired by the natural endurance of trees. Just as cambium cells in a tree keep it healthy year after year, our Cambium stays strong and beautiful too. Unlike real wood, the vinyl construction will never fade, warp, crack, or mildew, guaranteed. And with a lifetime warranty, you can enjoy peaceful outdoor living worry-free for all the seasons ahead.

SOLARGUARD™
Color that Lasts

You work hard for vibrant landscaping, and your fence shouldn't pale in comparison. Our advanced technology protects it from the sun's harmful rays so the color you choose today will keep a bright, like-new finish for seasons to come.

Even when the sun is at its brightest, your fence should be too. That's why we've created an exclusive color retention technology, SolarGuard, which helps your fence outperform others against the sun's harmful rays.

The secret of SolarGuard is in the unique composition of the fencing material itself. SolarGuard technology is actually infused as the fence is created, helping to protect its color from the inside out. Where standard fencing fades or discolors as a result of sun exposure, you can rest assured that SolarGuard helps your ActiveYards fence retain its original color beautifully for years, guaranteed.

GLIDELOCK™
Privacy & Strength

Your private outdoor sanctuary should be just that: private. Our unique, patent pending design goes together easily, locking tightly into place without any gaps. And it gives you more than seclusion, too. GlideLock fencing holds up to wind better than traditional fences.

Relax outdoors in total privacy. With GlideLock, your ActiveYards fencing assembles like traditional pickets but locks together for a tighter fit. In fact, there are no gaps at all. The result is perfectly peaceful seclusion that will last a lifetime.

ActiveYards GlideLock fencing holds up in wind. That's because the tighter fit adds strength to your ActiveYards fence. It resists wind pressure better than traditional tongue and groove pickets so even in a storm, your privacy isn't going anywhere.

Now you can see the forest through the trees.

Peace of mind is standard with *ActiveYards* fencing. You're not just purchasing a fence, you're investing in your home. At *ActiveYards* we understand that fencing needs to be as durable as it is beautiful. That's why we use only the finest materials and why we back all our products with a lifetime warranty.

ActiveYards™ Vinyl Fence Features

ActiveYards fences meet Miami-Dade Wind Code requirements and have an NOA (Notice of Acceptance) issued number. In a severe hurricane zone, like Miami, only the strongest and most durable fencing can withstand the force of hurricane wind. Our fences meet the extremely stringent Miami-Dade Wind Code. Standard fences can bend or buckle when the wind blows, creating large gaps. Our GlideLock pickets lock firmly together for a tighter, gap free fit, standing up to wind pressure while keeping seclusion intact. Some panels require modifications, please contact your Active Yards representative or visit our website at www.activeyards.com, for more details.

Certain styles of ActiveYards fence are pool code approved at the national level. Please note that codes not only vary by state but also by locality. Our pool code products may not meet your local pool code requirements. Be sure to check the codes in your area before ordering.

National Panel Specifications

- Fence panel must be at least 48" tall
- Distance from the top of the bottom rail to the top of the next highest rail must be at least 45"
- Spacing between pickets must be less than 4"
- Space from the bottom of the bottom rail to the ground must be less than 4"

National Gate Specifications

- Must have self-closing hinges
- Must have self-closing latches
- Need to open out (away from pool area)
- Opening mechanism of the latch must be at least 54" above the ground

Our Harmony Program allows you to personalize the look of your fence on certain styles by interchanging the color of pickets/boards and rails, creating a more unique look, distinctly your own. Choose among four popular fence styles and four colors, any color combination. Please contact your ActiveYards representative or visit our website at: www.activeyards.com, for more details.
