ALUMINUM FENCING

54" Granite Home Series - Black and 6' Dogwood Cambium Red Cedar

## Your Favorite Room Isn't a Room, It's a Yard.

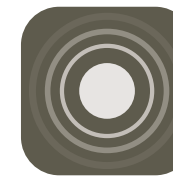

You've worked hard to make your house a home - functional, comfortable, a natural expression of your personality. With *ActiveYards*, that feeling doesn't stop at your door.

From the strength and beauty of their craftsmanship, to the guarantee of their future, our outdoor living products make your yard an integral part of your home.

Solutions for busy backyards. *ActiveYards*.

# ActiveYards™ Ingenuity

We believe your time outside should be fun and carefree, that's why we work hard on our patented technologies to bring you beautiful, durable solutions backed by lifetime warranties.

**CORIGIN™**

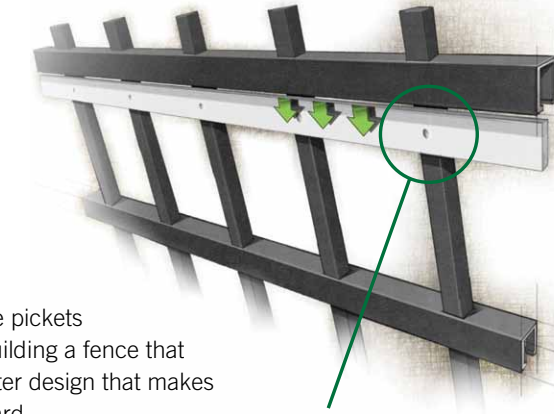

### Better from the inside out

ActiveYards has a whole new way for you to think about aluminum fencing. With a patent-pending construction system called Corigin, we connect the pickets and rails from the inside, fortifying the core and building a fence that outperforms all other standard fencing. It's a smarter design that makes ActiveYards the strong, beautiful choice for your yard.

### Our Strength is at the Core

ActiveYards aluminum fencing with Corigin technology features a solid metal core that runs through the center of each rail to help it stand strong through the seasons.

What's the biggest difference? No screws. With time and weather, screws on traditionally built fences can loosen, rust or break. Our core is designed with interior locking pivots that grip each picket of the fence just as tightly as screws, but without the wear and tear.

### Beauty from all Angles

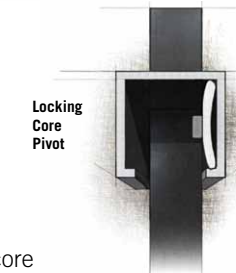

A key to a beautiful fence is its ability to rack or flex and follow the natural slopes of your yard. Corigin technology allows our fencing to rack farther so that it can flex to angles that other standard fencing just can't.

Traditionally built fences

Corigin™ technology

Part of the reason our fencing racks better is because ActiveYards aluminum fencing eliminates screws altogether. Not only does this make for a more gracefully laying boundary, it also eliminates the eyesore of screws. With ActiveYards aluminum fencing, you have a perfectly smooth-looking fence from both sides. Now you can love every view of your yard.

Locking Core Pivot

You work hard for vibrant landscaping, and your fence shouldn't pale in comparison. Our advanced technology protects it from the sun's harmful rays so the color you choose today will keep a bright, like-new finish for seasons to come. Even when the sun is at its brightest, your fence should be too. That's why we've created an exclusive color retention technology, SolarGuard, which helps your fence outperform others against the sun's harmful rays.

**SOLARGUARD™**

Color that Lasts

The secret of SolarGuard is in the unique composition of the fencing material itself. SolarGuard technology is actually infused as the fence is created, helping to protect its color from the inside out. Where standard fencing fades or discolors as a result of sun exposure, you can rest assured that SolarGuard helps your ActiveYards fence retain its original color beautifully for years, guaranteed.

**Peace of mind is standard with ActiveYards™ fencing.**

Peace of mind is standard with *ActiveYards* fencing. You're not just purchasing a fence, you're investing in your home. At *ActiveYards* we understand that fencing needs to be as durable as it is beautiful. That's why we use only the finest materials and why we back all our products with a lifetime warranty.
